

Analysis & Services	Prices (€, plus VAT)
Bacterial strains from public collection	
Active cultures	50
Freeze-dried strains	65*
Shipping fees	Inquire
Isolation and Preservation	
Isolation from a mixed culture plate	50
Replicate of na active culture	15
Preservation in -80°C	Inquire
Identification and characterization	
Genomic DNA extraction by kit	105
Sequencing of 16S rRNA gene (partial or nearly complete)	150 (100#)
Phylogenetic analysis (single gene and/or complete genome) / "from a genomic region"	350
Sequence analysis of housekeeping genes or any specific gene	150
mol% G+C content analysis of genomic DNA	130
Random Amplified Polymorphic DNA (RAPD) fingerprinting for two strains	215
Whole genome sequencing of 1 prokaryotic strain (includes previous checking by 16S rRNA sequencing)	500
Biochemical analyses	
Analysis of Fatty Acids (GC, MIDI)	85
Analysis of Polar Lipids (TLC)	270
Analysis of Respiratory Quinones (HPLC)	270
Phenotypic characterization	
Basic phenotypic characterization based on API® strips	55
BIOLOG MicroPlates for extensive testing of oxidation of different carbon sources	70
Morphological study (celular morphology, Gram, KOH, catalase, oxidase)	50
Microbial diversity	
Denaturing Gradient Gel Electrophoresis (DGGE)	Inquire
Phospholipid Fatty Acid Analysis (PLFA)	Inquire
Barcoding sequencing	Inquire
Bioinformatic Services	
Whole genome analysis (assembly and annotation)	300
Phylogenomic analysis (complete/draft genomes)	Inquire
Deposit of bacterial strains	
Public deposit	Free
Safe deposite, Service for 1 years	250
Renew the safe deposit service	80
Annual maintenance fee	50
Release of strain	50
Patent deposits (Budapest Treaty)	
Storage (Rule 6.1 of the Budapest Treaty)	650
Extension of storage duration (over the established on Rule 9 of the Budapest Treaty), per year	30
Viability statement (Rule 10.2 of the Budapest Treaty)	55
Supply of a sample (Rule 11 of the Budapest Treaty)	90
Other services	
Multiproposes Certificates (not related with Describing of novel species)	Inquire
Consultancy	Inquire
Training and related services	Inquire

*Temporarily not available.

#If more than 5 bacterial strains, the price will be 100€ per strain.

The price list is indicative of the services per strain. Depending on the project and the number of strains or samples at the time of the request, the budget could be adjusted.

Coimbra, 13th November 2020

Paula Vasconcelos Morais
(Director of UCCCB)
